Portfolio: kmmadu.github.io/Portfolio/

PROFESSIONAL SUMMARY

IT Engineer with hands-on experience in network monitoring, system troubleshooting, and infrastructure support. Skilled in maintaining and supporting network systems using tools such as MikroTik WinBox and The Dude. Strong foundation in software engineering with experience building automation tools using Python. Passionate about improving system reliability and growing in network engineering and automation.

WORK EXPERIENCE

IT Engineer

2025 – Present

SwiftTalk Ltd — Lagos, Nigeria

- Maintain, monitor, and troubleshoot network infrastructure to support system reliability and minimize downtime.
- Monitor network performance using MikroTik WinBox and The Dude.
- Identify and resolve connectivity issues across internal systems.
- Provide technical support to users and assist with system administration tasks.

IT Intern / Field Engineering Assistant

2023 – 2024

SwiftTalk Ltd — Lagos, Nigeria

- Assisted engineers with network equipment installation and maintenance at client sites.
- Gained hands-on experience with The Dude monitoring tool and VNC remote access.
- Supported troubleshooting of network and hardware-related issues.
- Participated in cable management and documentation of IT processes.

PROJECTS

NetPulse Monitoring Tool

GitHub: github.com/Kmmadu/NetPulse

- Built a Python-based network monitoring tool that checks device availability using ICMP (ping).
- Detects downtime in real-time and sends automated email alerts.
- Designed as a lightweight alternative to traditional network monitoring tools.

EDUCATION & TRAINING

Higher National Diploma (HND), Computer Engineering Technology

2021 – 2025

Federal Polytechnic, Oke

SKILLS

Networking & Systems:	Network Monitoring, System Troubleshooting, IT Infrastructure Support
Tools & Technologies:	MikroTik WinBox, The Dude, VNC Viewer, Linux CLI
Programming:	Python (Automation & Scripting Basics)

CERTIFICATIONS

- ALX Software Engineering Certificate (2024)
- CCNA (In Progress)
